of EXCEPTIONAL CARE AND INNOVATION

Additional Experience

- Pursuing this career path can take up to 8 years after high school. To prepare, excel in science and math courses while maintaining good grades.

Classes you can take now:

- Math (algebra, geometry, trigonometry, statistics, calculus)
- Laboratory sciences (biology and chemistry); physics.

Admissions Requirements

- Bachelor's degree, required pre-requisites
- Minimum 180 hours of veterinary experience
- Three (3) letters of recommendation
- Completion of MMI Interview (multiple mini-interview)
- While a minimum GPA of 2.5 (on a 4.0 scale) is required for all completed coursework, competitive applications often boast higher GPAs. Aim high and strive for excellence in your academics to stand out in a competitive pool of applicants!

For additional information about the application process, please visit: <https://www.vetmed.ucdavis.edu/admissions/>
